RPG

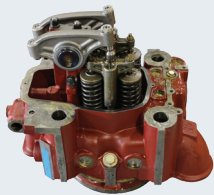

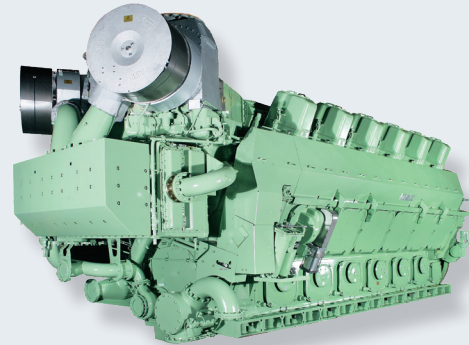

Your Resource for Diesel and Natural Gas Engine Repairs and Maintenance

As a division of one of Caterpillar's largest dealerships, Resource Power Group (RPG) has the balance sheet to support extensive service projects in power, marine, and industrial applications. RPG is a certified dealer of the following products:

- MaK Engines
- EMD Engines
- Napier Turbochargers
- Mitsubishi Turbochargers
- Heinzmann Governors and Control Systems
- Regulateurs Europa Governors and Control Systems
- Noris Controls and Monitoring Systems

Additionally, RPG services other brands of large, medium speed engines.

Our Services

Specialized services at these locations include: reconditioning of cylinder heads, turbochargers, roots blowers, governors, oil coolers, air coolers, fuel equipment, pumps and seals, cylinder liners, water pumps, and rocker arm assemblies.

Locations

Presently we have workshops in five locations and three countries including:

- Houston
- Miami
- New Orleans
- Ciudad del Carmen, Mexico
- Panama City, Panama

Knowledgeable People

RPG employs service personnel at three levels: Service Engineer, Service Supervisor, and Service Technician. Many of our skilled workers have previously worked aboard ships and in power plants. They are capable of performing routine overhauls, training crews, performing various kinds of in-place machining, and performing commissioning of new equipment.

Whether the work involves replacing a block or crankshaft, or troubleshooting a governor/controls problem, our highly skilled personnel can accomplish the task.

RPG was evaluated by the Caterpillar organization and received a "Platinum" rating for service capability. There is no other MaK or EMD dealer in the Americas with this rating.

Why Choose RPG as Your Service Company?

Location: RPG has service stations throughout the "Middle Americas" serving the southern US, Caribbean, Mexico, Central America, and the northern part of South America.

Commitment: RPG has invested in specialized equipment which allows us to overhaul and balance turbochargers and overhaul and calibrate governors and control systems at most of our service stations. Our inventory for MaK and EMD is the largest in the Western Hemisphere. Our service personnel go through multiple levels of training in order to satisfy OEM standards and meet or exceed customer expectations.

Sense of Urgency: Since most RPG personnel have previously worked aboard ships or in power plants, they understand the customers' sense of urgency and behave accordingly.

About RPG

Resource Power Group (RPG) is the trade name for Louisiana Machinery Company LLC's large, medium speed engine business. The company was established in 1933 and is a privately-owned business approaching \$1 Billion in annual revenues. RPG is an authorized distributor for EMD and MaK engines, for Mitsubishi and Napier turbochargers, and for Heinzmann and Regulateurs Europa governors and Noris controls.

RPG, with offices in Houston, Miami, New Orleans, Ciudad del Carmen (Mexico), and Panama City (Panama), focuses on power, marine, gas compression, and industrial applications in the "Middle Americas" including the Southern US, Mexico, Central America, the Northern part of South America and the Caribbean islands.
